I apply for use of the "Internet Teller" service offered by Bi-mart Federal Credit Union through their web site at www.bimartcreditunion.org under terms of the Credit Union's Internet Policy. Although the Credit Union is using a secure site and will make efforts to insure the privacy of my account, I understand there is potential dangers in conducting business on the Internet. I agree that Bi-Mart Federal Credit Union shall have no liability for my use of the Internet Teller.

Internet teller will allow you to see saving and checking account activity for the past 30 days, loan balances, send emails to the credit union, and request transactions from the credit union office. The data on the site will be uploaded each morning from the credit union. This means the on-line site is not live and there may be up to a one day delay for viewing result of requested transactions on-line.

If you wish to enroll fill out the attached application and send it by company truck or mail to the credit union office.

Once your application is received, the Credit Union will set up your account on Internet Teller and email you a temporary password.

The first time you sign on you will be immediately asked to create your personal password which is not known to credit union staff.
